#### QUESTION OF PERSONAL PRIVILEGE.

Senator Evans arose to a question of personal privilege and presented the following statement by the Secretary and requested that it be printed in the Journal:

#### STATEMENT BY SECRETARY OF SENATE.

SENATE CHAMBER, March 31, 1927.

*To the Members of the Senate.*

Senator Evans calls my attention to the fact that on page 24 of the Senate Journal of March 30 he is recorded as voting "aye" upon the motion of Senator Inman to recall Senate Bill No. 189 from committee and place it on file for consideration, whereas, in fact, Senator Evans voted "no" upon this motion. Upon investigation, I find that this is a printer's error and that upon the original roll call Senator Evans is recorded as voting "no." This error will be obvious to anyone who will check this roll call as appearing on page 24 of the Journal of March 30, noting that the total number of "aye" votes is shown at twenty-two, whereas twenty-three names are recorded and the total number of "no" votes is shown as sixteen, whereas only fifteen are recorded.

Respectfully submitted,

J. A. BEEK, Secretary of Senate.

An act to amend section three hundred nine and one-half of the Civil Code, relating to the authorization of the distribution of the capital stock or capital assets of a corporation among its stockholders, or any of them, and the procedure therefor.

The people of the State of California do enact as follows:

SECTION 1. Section 309½ of the Civil Code is hereby amended to read as follows: 309½. The directors of a corporation may apply to the commissioner of corporations for a permit to divide, withdraw, or pay or distribute among the stockholders or any of them, any part of the capital stock, or any property of the corporation other than dividends from the surplus profits arising from the business thereof. Any such application shall be in writing and shall set forth the amount of the authorized capital stock, the amount of the subscribed capital stock, the total value of the assets and the total amount of the existing indebtedness and shall further state, that after such creation of indebtedness, or division, withdrawal, payment, or distribution, the assets of the corporation taken at their reasonable value will be not less than the amount of the subscribed capital stock over and above the total indebtedness of the corporation; *provided, however*, that in the case of a corporation in liquidation applying for a permit to distribute a portion of its assets in lieu of this last and further statement the application shall state that the corporation is in process of liquidation, that it is not engaged, and does not propose to engage in business other than such as is appropriate or incidental to such liquidation, and that after such distribution the assets of the corporation taken at their reasonable value will be at least sufficient to pay and discharge the existing indebtedness and all future anticipated indebtedness of the corporation. The application shall further state that the holders of at least two-thirds of the subscribed capital stock have consented thereto either by instrument in writing filed with the secretary of such corporation or by vote at a meeting of the stockholders called for that purpose. The application shall be in such form and contain such additional information as the commissioner shall prescribe and shall be signed by the president and secretary or a majority of the board of directors of the corporation and shall be verified in the same manner as a complaint in a civil action, and no permit shall be issued except upon an application so filed and payment of the fees therefor and the cost of the publication or posting of notice hereinafter provided. Upon the filing of the application the commissioner must give notice thereof once a week for two successive weeks by publication in some newspaper published in the county of the principal place of business of the corporation, or if there be no such newspaper by notices posted in three public places in the county. Any creditor of the corporation may file with the commissioner written objections to the granting of such permit, verified in the same manner as an answer in a civil action, and also state therein an address to which any notice provided hereby may be mailed. At the expiration of said two weeks, if no objection be so filed, the commissioner shall hear and determine said application, but if any objection be so filed and not withdrawn in writing the commissioner shall in writing notify the corporation thereof which may within thirty (30) days thereafter apply to the superior court of said county for a writ of mandate to compel the issuance of said permit, otherwise said application shall be deemed abandoned without prejudice to another or similar application upon like notice. In such mandate proceedings all such objecting creditors shall be joined with the commissioner as defendants and served with process and shall have the right to answer therein separately or jointly, but the commissioner need not file any pleading therein unless he so desires nor shall any judgment for damages or costs be rendered against him personally or against the state. If any defendant can not be served personally within the state service upon such defendant may be effected by service upon the commissioner who shall thereupon notify said defendant in writing of such service. In such mandate proceedings the burden shall be upon the corporation to establish its right to the issuance of such permit. If the court shall find that all the allegations required to be set forth in said application are true and that such permit may be issued without injury to any creditor it shall order the commissioner to issue such permit, otherwise it shall dismiss the proceedings; *provided*, that the court may upon a like finding order the issuance of a permit for a lesser amount than that applied for. Any party to said proceeding may appeal from the judgment therein as in other mandate proceedings except that notice of appeal shall be filed within ten days after notice of entry of judgment, and if not so filed said judgment shall become final. Upon the judgment becoming final a certified copy thereof shall be filed with the commissioner who shall proceed in accordance therewith; *provided*, that should anything occur between the filing of the application and the filing of said certified copy, affecting substantially the financial status of the corporation, and any creditor shall have filed with the commissioner written objections based thereon, and the commissioner shall find that such thing has so occurred and was not considered by the court he shall not issue his permit but shall refer the matter to said court which shall thereupon reopen said proceedings and render such judgment thereon as the circumstances and justice may require, from which judgment an appeal may be taken as in the case of the original judgment. Any permit granted to a corporation in liquidation shall state on its face the amount of the subscribed capital stock, the amount of the assets

and indebtedness which will remain after such distribution is had thereof, and the amount of the capital stock which said corporation shall thereafter be deemed to have until changed by law, which said amount of capital stock shall be the total value of such remaining assets; *provided, however*, that in case the articles of incorporation of said corporation provided for shares of stock of different classes or preferences such provision therein shall be applied and be as effective as though there had been no reduction or change in the amount of the capital stock. Before any division, withdrawal, payment or distribution of assets of a corporation is made, under any permit of the commissioner obtained as herein provided or any dividend is made under any such permit other than from the surplus profits arising from the business of the corporation, the corporation shall file in the office of the secretary of state a copy of such permit duly certified by the commissioner and shall also file a copy of such permit so certified in the office of the county clerk of the county of the principal place of business of the corporation and in the office of the county clerk of every county in the state in which the corporation holds real property.

Nothing hereinabove appearing shall be construed to apply to the purchase of its own preferred stock by a corporation which is in actual liquidation and which has no unsecured indebtedness, and any such corporation may, with the written assent of the holders of at least two-thirds of its issued and outstanding preferred stock, purchase and retire and cancel all or any part of such preferred stock, upon obtaining a permit therefor from the commissioner of corporations.

*Resolved by the Senate, the Assembly concurring,* That the Legislature of the State of California, at its forty-seventh regular session commencing on the third day of January, 1927, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California that section 22 of article IV of the constitution of this State be amended to read as follows:

Sec. 22. No money shall be drawn from the treasury but in consequence of appropriation made by law, and upon warrants duly drawn thereon by the controller; and no money shall ever be appropriated or drawn from the State treasury for the purpose or benefit of any corporation, association, asylum, hospital, or any other institution not under the exclusive management and control of the State as a State institution, nor shall any grant or donation of property ever be made thereto by the State; *provided*, that notwithstanding anything contained in this or any other section of the constitution, the Legislature shall have the power to grant aid to the institutions conducted for the support and maintenance of minor orphans, or half-orphans, or abandoned children, or children of a father who is incapacitated for gainful work by permanent physical disability or is suffering from tuberculosis in such a stage that he can not pursue a gainful occupation, or aged persons in indigent circumstances—such aid to be granted by a uniform rule, and proportioned to the number of inmates of such respective institutions; *provided, further*, that the Legislature shall have the power to grant aid to needy blind persons not inmates of any institution supported in whole or in part by the State or by any of its political subdivisions; *provided, further*, that the State shall have at any time the right to inquire into the management of such institutions; *provided, further*, that whenever any county, or city and county, or city, or town, shall provide for the support of minor orphans, or half-orphans, or abandoned children, or children of a father who is incapacitated for gainful work by permanent physical disability or is suffering from tuberculosis in such a stage that he can not pursue a gainful occupation, or aged persons in indigent circumstances, or needy blind persons not inmates of any institution supported in whole or in part by the State or by any of its political subdivisions: such county, city and county, city, or town shall be entitled to receive the same pro rata appropriations as may be granted to such institutions under church, or other control. An accurate statement of the receipts and expenditures of public moneys shall be attached to and published with the laws at every regular session of the Legislature; *provided, however*, that for the purpose of raising five million dollars, to be used in establishing, maintaining, and supporting in the city and county of San Francisco, State of California, an exposition in commemoration of the completion of the Panama Canal, to be known as the Panama-Pacific International Exposition, the State Board of Equalization shall, for the fiscal year beginning July 1, 1911, and for each fiscal year thereafter, to and including the fiscal year beginning July 1, 1914, fix, establish, and levy such an ad valorem rate of taxation, as when levied upon all the taxable property in the State, after making due allowance for delinquency, shall produce for each of such fiscal years a sum of one million two hundred fifty thousand dollars. The said taxes shall be levied, assessed, and collected upon every kind and character of property in the State of California not exempt from taxation under the law, and subject to taxation on the first day of July, 1910, and in the same manner, and by the same method, as other State taxes were levied, assessed, and collected under the law, as the same existed on the first day of July, 1910. The State Board of Equalization shall each year, at the time it determines the amount of revenue required for other State purposes, determine, fix, and include the rate of tax necessary to raise the revenue herein provided for.

There is hereby created in the State treasury a fund to be known as the Panama-Pacific International Exposition fund, and all moneys collected pursuant to this provision, after deducting the proportionate share of the expense for the collection of the same, shall be paid into the State treasury, and credited to such fund. All moneys so paid into such fund are hereby appropriated, without reference to fiscal years, for the use, establishment, maintenance and support of said Panama-Pacific International Exposition. No tax, license fee, or charge of any kind or character shall ever be levied or assessed or charged against any property of said Panama-Pacific International Exposition, or against any property used as exhibit therein, while being used or exhibited in connection therewith.

There is hereby created a commission to be known as the Panama-Pacific International Exposition Commission of the State of California, which shall consist of the Governor of said State and four other members to be appointed by the Governor, by and with the advice and consent of the Senate of said State. The Governor shall have the power to fill all vacancies occurring at any time in said commission. The members of said commission shall receive no compensation and shall hold office until such exposition shall have been closed and its affairs settled. Said four members of said commission shall be selected from different sections of the State, and the appointment thereof shall be made by the Governor of the State during the month of February, 1911. The commission hereby created shall have the exclusive charge and control of all moneys paid into the Panama-Pacific International Exposition Fund; and provided, further, that the Legislature shall pass all laws necessary to carry out the provisions of this act, including the times and the manner in which and the terms and conditions upon which moneys shall be drawn from the State treasury by said commission; where contracts and vouchers shall be filed; to whom and how often reports shall be made; what disposition shall be made of any sum left unexpended or received from the sale of any property or buildings purchased or constructed by said commission for the use of said exposition, or of any disposition of any building or improvement constructed by said commission out of said fund, and to provide for the transfer to the general fund of the State of California, of any portion of said Panama-Pacific International Exposition fund unused.

The commission herein created is authorized and directed to make such proper contract with the Panama-Pacific International Exposition Company, a corporation organized under the laws of the State of California on the twenty-second day of March, 1910, as will entitle the State of California to share proportionately with the contributors to the said Panama-Pacific International Exposition in the returns from the holding of said exposition at the city and county of San Francisco.

PRESENTATION OF PETITION—(OUT OF ORDER).

The following petition was presented, and ordered printed in the Journal:

By Senator Jones, H. C.:

STATE OF CALIFORNIA  
DEPARTMENT OF INSTITUTIONS  
AGNEW'S STATE HOSPITAL

AGNEW, CALIFORNIA, March 24, 1927.

*Hon. Herbert C. Jones, State Senator,  
Sacramento, California.*

MY DEAR MR. JONES: I think you are absolutely correct in the position you take in regard to Senate Bill No. 386.

I do not think a definite period of detention should be fixed for any one being sent to a State hospital for the insane on account of mental trouble, whether the person so sent has committed a criminal act or not.

Under observation with the opportunity afforded in a State hospital very often the mental condition can be determined in a very short time; while, of course, longer observation is sometimes necessary. I can not conceive of any case requiring a year.

Whenever it has been determined either that a patient is not insane, or that he has recovered, I think the superintendent should have the right to discharge the patient and, moreover, the patient should have a right to go, and if the superintendent does not discharge him the right to appeal to the court.

I am wondering also if compelling a sane man to remain in a hospital for the insane would not be depriving him of his constitutional rights.

I can not see any good object to be accomplished by exacting a year's residence. To me it does not seem to be necessary even in protection or justice to the public, nor in justice to the person committed, or the hospital. My opinion is concurred in by members of my medical staff.

Yours very truly,  
(Signed)

LEONARD STOCKING,  
Medical Superintendent.

MESSAGE FROM THE GOVERNOR.

The following message from the governor was received and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,  
March 31, 1927.

*To the Senate of the State of California.*

Senate Bill No. 221 is herewith returned without my approval.

This bill seeks to amend Section 307 of the Civil Code, relating to the manner of electing directors of cooperative agricultural corporations and organizations. In this bill there is a serious discrepancy between the title and the body of the bill, which would be almost certain to render it inoperative if it were enacted in the law.

There is, moreover, no corporation designated under our law as a "mutual, cooperative non-profit agricultural corporation" or organization, and the exclusion of such corporations or organizations from the provisions of section 307, would consequently have little meaning.

I have pointed out to the author of the bill this and other defects which have inadvertently been included in this measure and he proposes to cure them by the introduction of another bill on the same subject.

Respectfully,

C. C. YOUNG, Governor.

SUSTAINING GOVERNOR'S VETO.

Message from the Governor announcing his objections to Senate Bill No. 221, read.

The question being: Shall Senate Bill No. 221 become a law notwithstanding the objections of the Governor?

The amount that shall have been paid at such sale as accrued interest on the bonds shall be, by the treasurer of the state immediately after such sale, paid into the treasury of the state and placed in the "state railroad grade separations interest and sinking fund", which is hereby created.

Moneys shall be drawn from said state railroad grade separations fund for the purposes herein designated upon warrants duly drawn by the controller of the state upon demands made by the California highway commission and allowed and audited by the state board of control; provided, however, that out of the proceeds of the first sale of bonds made hereunder the state controller and the state treasurer shall transfer upon their respective books the sum of one hundred thousand dollars to the credit of the "state railroad grade separations revolving fund" which fund is hereby created in the state treasury.

The moneys in said state railroad grade separations revolving fund or such part thereof as the California highway commission shall deem necessary, may be expended from time to time upon the demands of the California highway commission, approved by the state board of control, for the purpose of making cash payments in advance for such expenditures as are necessary and proper to carry out the provisions of this section. On or before the tenth day of each month thereafter, the California highway commission shall submit to the state board of control a verified, itemized statement, showing all expenditures during the preceding calendar month of the money so drawn from said state railroad separations revolving fund, accompanied by proper vouchers and receipts therefor. Said statements shall be audited by the state board of control in the same manner that claims against the state are audited, and if found to be correct shall be approved by the state board of control and transmitted to the state controller with such approval endorsed thereon. The state controller shall thereupon draw his warrant upon the state railroad grade separations fund in favor of the California highway commission for the aggregate amount of such expenditures, and upon the surrender of such warrant, properly endorsed, the state treasurer shall transfer the amount thereof upon the books of his office from the said state railroad grade separations fund to the said state railroad grade separations revolving fund to be expended as aforesaid.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum in addition to the ordinary revenues of the state as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

The treasurer of the state shall on the first day of January, 1929, and on the first day of each July and the first day of each January thereafter transfer from the general fund of the state treasury to the state railroad grade separations sinking fund such an amount of the moneys by this section appropriated as shall be required to pay the interest on the bonds sold hereunder, until the interest on all the said bonds so sold shall have been paid or shall become due in accordance with the provisions of this section.

There is hereby created in the state treasury a fund to be known and designated as the "state railroad grade separations sinking fund". The treasurer of the state shall on the third day of July, 1934, and on the third day of July of each and every year thereafter, in which a partial of the bonds sold pursuant to the provisions of this section shall become due, transfer from the general fund of the state treasury to the said state railroad grade separations sinking fund such an amount of moneys appropriated hereunder as may be required to pay the principal of the bonds so becoming due and payable in such years.

The principal of all of said bonds sold shall be paid at the time the same becomes due from the state railroad grade separations sinking fund and the interest on all bonds sold shall be paid at the time said interest becomes due from the state railroad grade separations interest and sinking fund. Both principal and interest shall be so paid upon warrants duly drawn by the controller of the state upon demands audited by the state board of control and the faith of the State of California is hereby pledged for the payment of the principal of said bonds so sold and the interest accruing thereon.

Relating to securing the aid of the United States government in establishing a basis for execution of the coordinated plan for development of the water resources of California.

WHEREAS, The joint legislative committee of the forty-seventh session of the Legislature, under Assembly Concurrent Resolution No. 16, has submitted its report; and,

WHEREAS, During its deliberation said committee fully realized that certain features of the coordinated plan for the development of the water resources of California, as outlined in Bulletin No. 12 of the State Engineer, involved matters coming within the jurisdiction and concern of the federal government; and,

WHEREAS, Governor Young, in his inaugural address, recognized the paramount importance of some comprehensive plan for the conservation and development of the water resources of California in the following words:

"The solution of this problem can no longer be left to haphazard and unrelated development. There is no doubt that it is high time to seek some comprehensive plan which will meet the needs of both our great central valleys. The water which falls so bountifully during our winters, and which now wastes itself in bay and ocean, if properly stored and controlled and placed upon the land, would be sufficient to water every irrigable foot of this vast area, beside practically eliminating all future danger from winter floods.

This enterprise, however, is so vast that it can be financed by no one agency alone. The farmer whose lands are benefited can not meet the expense, as he largely does in the case of minor irrigation projects. The county whose cities are dependent upon local agricultural prosperity must also do its share. The State must take the leadership in coordinating and planning the whole. The federal government possibly must be asked to advance the money for the initial construction, just as is proposed in the Boulder Canyon Project." ; now therefore, be it

*Resolved by the Senate and the Assembly, jointly.* That this Legislature commend to the Governor that he communicate with the President of the United States and invoke the cooperation and aid of the federal government in establishing a basis for the execution of the coordinated plan for development of the water resources of California.

#### MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received and read:

#### EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

April 4, 1927.

*To the Senate and the Assembly of the State of California.*

Decisions have just been rendered, one by the Supreme Court of California, and two by the United States Supreme Court, which threaten very grave consequences to our taxation system and to our State revenues unless the situation is once met by appropriate legislation.

By the first of these decisions corporations organized outside of this State are exempted from the payment of corporation license taxes. This not only entails a loss to the State of nearly half a million dollars per year, but also imposes a discrimination against our own domestic corporations. Manifestly this injustice to California corporations must not be permitted to continue.

The other decisions are even graver in their consequences, and, unless cared for by the Legislature, will mean a probable tax loss amounting to millions of dollars as well as serious confusion in our system of bank taxation. These decisions of the United States Supreme Court deal with cases arising in Wisconsin and Minnesota, and are based on the method of taxing so-called "intangible" property in those states. If applied to California, where similar laws prevail, they will wipe out practically all taxation on our national banks. This would not only be unfair to our State banks, which would still be taxed as at present, but would also unquestionably not be welcomed by the national banks themselves, which have never evidenced any desire to escape their fair share of the tax burden.

Fortunately, these decisions have been handed down while this Legislature is still in session, and the State can therefore be saved from the major part of the danger with which it is threatened. The State Board of Equalization, State Controller, Board of Control, and Attorney General have been busily engaged in working on the problem, and legislation is being suggested in the form of bills to accomplish the following:

First—To extend to our California corporations the relief from license taxes which the decision accords to foreign corporations;

Second—To adjust the tax on general corporate franchises to the present proper rate as determined by the State Board of Equalization;

Third—To eliminate the differential classification of so-called "intangible" property, on which the decisions affecting national bank taxation were based.

These steps are designed only to meet emergencies presented by these recent court decisions and will neither produce any increase in State revenues or effect any change in our tax system beyond what the decisions themselves render absolutely imperative. By this method our tax system may be properly safeguarded, and our State banks and domestic corporations may be assured of no greater tax burden than is borne by national banks and foreign corporations.

Respectfully submitted,

C. C. YOUNG, Governor.

Message from the Governor referred to Committee on Rules.

WHEREAS, There appears to be a serious need for the compilation, codification, restatement or revision of the laws of the State of California, in whole or in part; and

WHEREAS, It is necessary that a thorough investigation be made of the methods of statutory revision found useful in other states and that a thorough examination of the codes and statutes of California be made in relation to this subject, particularly with reference to conditions and interests that may be peculiar to California, in order that the Legislature may have available adequate information to enable it to fix and determine the policy that should be adopted in this regard; and

WHEREAS, The population of the State of California, according to the census of 1920, was 3,426,536, an increase over the population of 1910 of 1,048,987, showing conclusively that the State of California is entitled to more representation in the House of Representatives; and

## MOTION TO WITHDRAW SENATE BILL.

Senator Fellom moved, duly seconded by Senator Maloney, that Senate Bill No. 4 be withdrawn from Committee on Revision of Criminal Law and Procedure and placed on file.

## MOTION TO LAY ON TABLE.

Senator Chamberlin moved that Senator Fellom's motion to withdraw Senate Bill No. 4 from Committee on Revision of Criminal Law and Procedure be laid on the table.

Motion carried, and such was the order.

## QUESTION OF PERSONAL PRIVILEGE.

Senator Fellom arose to a question of personal privilege and addressed the Senate as follows:

Regarding the announcement of the vote on the motion of Senator Chamberlin to lay on the table my motion to withdraw Senate Bill No. 4 from committee:

I was on my feet before the vote was announced asking for a roll call—this demand should have had the same standing as a call for "division," and should, therefore, have been allowed. Others were ready to request roll call with me.

Further, this bill was introduced in the Senate on January 6, 1927. It was referred to the Committee on Revision of Criminal Procedure, though no such a committee then existed. We were operating under the old rules adopted on January third, which did not provide for a Committee on Revision of Criminal Procedure. The new or permanent rules which created this new committee were not adopted until January 7, 1927. I maintain above was a serious irregularity.

#### MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were received and read:

#### EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

April 6, 1927.

*To the Senate of the State of California.*

Senate Bill No. 323 is herewith returned without my approval.

This bill seeks to change the law relating to the joint investment of funds in membership shares or investment certificates of building and loan associations.

If enacted into law it would do away with certain safeguards provided in subsection 3 of section 13 of the Inheritance Tax Act so far as joint investments in building and loan associations are concerned. The State Controller states that it would thereby clearly obviate the possibility of collecting an inheritance tax in such cases. There undoubtedly was no such intention behind this legislation, but nevertheless I am advised that this would be its effect.

The bill would further make a very definite change in the law with respect to minors. So far as such joint investments in building and loan associations are concerned, it would apparently give minors the same status as adults. I believe it is unwise to give to minors the right and power to create joint interests and to mingle their funds in joint investments with others to the same extent as persons who have attained their majority.

For the foregoing reasons, I am withholding my approval of this bill.

Respectfully submitted.

C. C. YOUNG, Governor.

Message from the Governor ordered on unfinished business file.

Also:

#### EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.

April 6, 1927.

*To the Senate of the State of California.*

Senate Bill No. 134 is herewith returned without my approval.

This bill would create a sheriff's special fund in the sum of \$5,000 in counties of the sixth class (Santa Clara) in addition to the funds now provided by law. It would also empower the board of supervisors in that county to transfer to this fund such additional funds as they may deem necessary.

Under section 5 of article II of our constitution, the Legislature has the power to classify counties for certain limited purposes. The subject matter of this bill does not fall within the purposes there enumerated. I am advised that the bill is therefore unconstitutional and consequently am withholding my approval.

Respectfully submitted.

C. C. YOUNG, Governor.

Message from the Governor ordered on unfinished business file.

#### CONSIDERATION OF DAILY FILE.

Providing for the creation of a joint committee of the Senate and Assembly to investigate traffic conditions in the State of California and the question of safety and prevention of accidents in relation thereto; to prepare and make recommendations concerning changes in existing laws, and the enactment and/or enforcement of laws relating to the use and operation of vehicles on the public highways, and to prepare and submit with supporting facts, ascertained, a report as to the advisability of the adoption of a law requiring financial security on the part of persons operating motor vehicles upon the highways of this State and making appropriation to meet the expenses of said committee necessarily incurred in said work.

WHEREAS, There has been a great increase in the number of motor vehicles used and operated upon the highways of the State of California resulting in an abnormal increase in the number of accidents resulting in injury to persons and property; and

WHEREAS, No adequate method seems to have been devised for the enforcement of the safety provision of the existing laws relating to the use and operation of motor vehicles on the highway; and

WHEREAS, Any revision of the laws relating to such use and operation of such vehicles should involve consideration of the advisability of enacting a law requiring owners or operators of such vehicles to give financial security for the satisfaction of judgments arising out of the use and operation of such vehicles. Now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate concurring.* That there is hereby created a joint committee of the Assembly and Senate to consist of three members of the Assembly to be appointed by the Speaker of the Assembly, one of whom shall be the Speaker of the Assembly and three members of the Senate to be appointed by the President of the Senate, one of whom may be the President of the Senate.

It will be the duty of said committee to investigate the adequacy of the facilities for the enforcement of existing laws relating to the use and operation of vehicles on the highways of this State, and the advisability of establishing some system of enforcement of all laws relating to the safe operation of such vehicles, and to make recommendations concerning the advisability of amendments to existing laws, if in the discretion of the committee deemed necessary, and, if the committee reports in favor of the adoption of any specific law, it should include in its report or plan recommended the measures which in its judgment should be enacted.

It shall also be the duty of said committee to study the advisability of requiring owners or operators of motor vehicles on the public highways to give some form of security for the payment of judgments, for which said owner or operator may be liable, arising out of the use and operation of such vehicles on the public highways. In making this study the said committee shall carefully consider the laws and systems enacted in other states and countries, and the effect that any such systems would have in the State of California on account of the unusual conditions arising in this State due to many thousands of visitors coming into this State every year by means of motor vehicle transportation. Said committee is to make its report to the Legislature at its next session, and for the purpose of studying the questions involved and the preparation of its report, it shall be given the assistance of the Chief of the Division of Motor Vehicles and shall have the right to call for any statistics or available data of said division.

The members of said committee shall receive no compensation for such services other than their official salaries, but shall be reimbursed for their actual expenses necessarily incurred hereunder not exceeding the amount hereinafter specified. Such committee is hereby authorized to employ competent clerical or other help to assist in the preparation and compiling of all data ascertained, including the making of the final report. The said committee may also employ an executive secretary, whose duties shall be to work under the direction and control of said committee, and to that end the said committee may send said executive secretary to any state of the Union to make a first-hand investigation of conditions there. The said committee shall be provided with quarters in the State building at San Francisco, if such quarters are available, but if said quarters are not available, said committee may procure quarters in the city of San Francisco for its headquarters.

The expense of such clerical and other help and of the executive secretary and of such quarters, and for other necessary expenses of the committee, shall be passed upon and fixed by the committee subject, however, that the total of said expenses and costs shall not exceed the amount hereinafter specified.

The expenses thus incurred by said committee under the authority hereof shall be payable out of the moneys heretofore or hereafter appropriated for the contingent expenses for the Senate and Assembly at this session of the Legislature, payable one-half from the contingent fund of the Senate and one-half from the contingent fund of the Assembly, but not exceeding the sum of seven thousand five hundred dollars in all, which sum, or so much thereof as may be necessary, so composed, is hereby set apart, reserved and appropriated out of said respective contingent funds for the purposes aforesaid to be disbursed from time to time by Controllers' warrants to be drawn against said contingent funds upon the written orders of the chairman of said joint committee. And be it further

*Resolved*, That the said committee be instructed to have prepared its report not later than the first day of December, A. D., 1928, and that a copy of said report be not later than said date transmitted to the Governor of the State in order that he may make such comment thereon as he may deem appropriate to the Legislature at its next ensuing session.

SEC. 27. (1) Where the tax imposed by this act is of a lesser amount than the maximum credit of eighty per cent of the federal estate tax allowed by the federal estate tax act because of said tax herein imposed, then the tax provided for by this act shall be increased so that the amount of tax due this state shall be the maximum amount of the credit allowed under said federal estate tax act. Said additional tax shall be paid out of the same funds as any other ordinary charge against the estate.

(2) Where no tax is imposed by this act because of the exemptions herein and a tax is due the United States under the federal estate tax act then a tax shall be due this state equal to the maximum amount of the credit allowed under said federal estate tax act.

(3) Should the amount of tax in this act increased by this section be afterwards found to be more than the maximum credit allowed under the federal estate tax act, then any excess over and above the said maximum credit shall be refunded as is provided in section 11 of this act.

(4) If this section, or any subsection, phrase or clause thereof is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portion or portions of this act in force at the time of the enactment of this section, nor shall such decision affect the validity of the remaining portion or portions of this section.

SEC. 4. Section 8, subdivision three (3), is hereby amended to read as follows:

(3) When property is transferred in trust or otherwise, and the rights, interest or estates of the transferees are dependent upon contingencies or conditions whereby they may be wholly or in part created, defeated, extended, or abridged, a tax shall be imposed upon said transfer at the highest rate which, on the happening of any of the said contingencies or conditions, would be possible under the provisions of this act, and such tax so imposed shall be due and payable forthwith by the executors or trustees out of the property transferred; *provided, however*, that on the happening of any contingency whereby the said property, or any part thereof, is transferred to a person or corporation exempt from taxation under the provisions of this act, or to any person taxable at a rate less than the rate imposed and paid, such person or corporation shall be entitled to a return of so much of the tax imposed and paid as the difference between the amount paid and the amount which said person or corporation should pay under the provisions of this act: such return of overpayment shall be made in the manner provided by section 11 of this act, upon order of the court having jurisdiction; *provided*, that the person or persons or body politic or corporate beneficially interested in the property chargeable with said tax or the trustees thereof may elect not to pay the same until such person or persons, or body politic or corporate beneficially interested in such property shall come into the actual possession or enjoyment thereof, and in that case such person or persons or body politic or corporate or trustees shall execute a bond to the people of the State of California in a penalty of the amount of said tax plus interest thereon for five years at the rate of seven per cent per annum with such sureties as the said superior court may approve, conditioned for the payment of said tax and interest thereon at the rate of seven per cent per annum commencing at the expiration of eighteen months from the death of the decedent at such time or period as they or their representatives may come into the actual possession or enjoyment of such property, and conditioned further, that if said bond be not renewed and the returns made as herein provided, the amount of said tax and interest thereon shall immediately become due and payable. Said bond shall be filed in the office of the county clerk of the proper county and a certified copy thereof shall be immediately transmitted to the state controller; *provided, further*, that such person or persons or body politic or corporate, or trustees, shall enter into such security within a period of ninety days after the entry of the order or decree fixing the inheritance tax charged against such transfer, or within such period thereafter as the court may in its discretion permit, and shall make a full and verified return of such property to said court and file the same in the office of the county clerk within one year from the date of such order or decree fixing tax, and at such times thereafter as the court on the application of the state controller may require, and renew such security every five years after the date of the approval thereof. Upon the approval of said bond as herein provided, said tax shall cease to be a lien upon

the property so transferred. If such security shall not be renewed before the expiration of each five year period, said bond shall immediately become due and payable and if the same be not paid forthwith, the attorney general shall file an action in the name of the people of the state on the relation of the controller, to recover the same and the penalties thereunder and no demand for payment shall be necessary before the institution of such suit. Whenever it shall be made to appear to the satisfaction of the court that any surety on such bond or undertaking has for any reason become insufficient, the court may on motion of the state controller, after such notice to such person or persons, body politic or corporate, or trustees as the court may require, order the giving of a new undertaking with sufficient sureties in lieu of such insufficient undertaking. In case such new undertaking so required shall not be given within the time required by such order, or in case the sureties thereon fail to justify thereon when required, all rights obtained by the filing of such original undertaking, or subsequent undertaking, shall cease and the amount of said tax and interest thereon shall immediately become due and payable.

Sec. 14½. Any portion or portions of a county containing unincorporated territory, or containing the whole or any portion of one or more incorporated cities and contiguous unincorporated territory, and not included in a county irrigation district or a county waterworks district, may be added to any county waterworks district organized under the provisions of this act, at any time, in the manner herein prescribed.

The holder or holders of title, or evidence of title, to one-half or more of the lands sought to be added may file with the board of supervisors a petition in writing praying that said lands be added to the district. The county assessment roll of the county in which the lands sought to be added are situated, which assessment roll has been last equalized at the time the petition is filed, shall be conclusive evidence as to the holders of title, or evidence of title, to said lands.

The petition, which may consist of any number of separate instruments, shall set forth and describe the boundaries of the proposed addition, or additions, and pray that the lands within such boundaries be added to the district. A certificate of acknowledgment taken before a notary public or justice of the peace of any state, or an affidavit by any person in the presence of whom the petition was signed, shall be sufficient evidence of the genuineness of the signature, or signatures, and the fact of place of residence of each petitioner.

Upon the filing of said petition, the board of supervisors shall set a time for the hearing thereof, which shall be not less than fifteen and not more than thirty days from the date the petition is filed. Notice of the filing of said petition shall be given by the clerk of said board by publishing at least once a week, for at least two weeks, in a newspaper printed, published and circulated in the county in which the district is situated, a notice that the petition has been filed, giving the time set for the hearing thereof, and that the petition, together with all written protests filed with said clerk prior to the time set for said hearing, will be heard and passed upon at that time, and that all persons interested therein may then appear and be heard. Said notice shall also contain the text of the petition, but not more than five of the names attached thereto need be published, provided the number of the total of said names is stated.

At the time fixed for the hearing the board of supervisors shall hear the petition, together with such written protests as shall have been filed as herein provided, by or on behalf of the owners of taxable property situated within the district, or within the proposed addition thereto, and may adjourn such hearing from time to time, not exceeding four weeks in all.

No defect in the contents of the petition or in the notice, or publication of the notice, shall vitiate any proceedings thereon, provided such petition, or petitions, have a sufficient number of qualified signatures attached thereto.

At said hearing said board may make such changes in the proposed boundaries of the territory sought to be added as may be deemed advisable, but said board shall not modify said boundaries so as to exclude any territory which in its opinion will be benefited by being added to the district. Upon such hearing of said petition, said board shall find as to the sufficiency of said petition, and its decision thereon shall be final and conclusive.

At the expiration of the time at which protests may be filed, if none be filed, or if protests be filed and after hearing be denied, then said board shall be deemed to have acquired jurisdiction to further proceed, and the board may grant the petition, in whole or in part, and shall fix the boundaries of the territory sought to be added, and shall, by resolution or ordinance, after having acquired jurisdiction to proceed, provide for and order the holding of a special election in said district and in said proposed addition, to determine whether or not the territory in said proposed addition shall be added to the district. At such election the proposition to be submitted shall be: "Shall the territory described in the resolution of the board of supervisors, adopted on the-----day of-----, 19--, be added to-----county water-works district No.-----?" For the purposes of said election, said board shall in said resolution or ordinance establish one or more precincts within the boundaries of said county waterworks district, and one or more precincts within the boundaries of the territory sought to be added thereto, designate a polling place, and appoint one inspector, one judge and one clerk for each such precinct. In all particulars not recited in such resolution or ordinance, such election shall be held as provided by law for holding general elections in such county. Such resolution or ordinance ordering the holding of said election shall, prior to the date set for said election, be published five times in a daily, or twice in a weekly or semiweekly newspaper of general circulation, printed and published in such county and designated by said board for said purpose. No other notice of said election need be given. If at such election a majority of the votes cast in the district then existing and a majority of the votes cast in the territory sought to be added thereto are in favor of such addition, the board shall enter an order to that effect upon its minutes, declaring said territory added to the district, and from and after the date of such order, such territory shall be deemed added to and shall form a part of said district, subject to all the rights, privileges, powers and responsibilities set forth in this act and necessarily incident thereto.

If, in the judgment of the board of supervisors, it is deemed necessary, because of the lack of sufficient moneys in the funds of the district to provide adequate water, construct necessary plants and distributing systems, or properly serve the territory sought to be added, or for any other reason, to make the addition of the new territory conditional upon the voting and issuance of additional bonds, said board may, in its resolution or ordinance granting the petition, or a part thereof, and calling an election upon the proposition of adding new territory to the district, order that said election shall be upon the joint proposition of adding new territory and of incurring an indebtedness by the issuance of bonds of the district as the same will exist if the new territory sought to be added is added thereto. Said ordinance or resolution shall state the purpose for which the proposed debt is to be incurred, the amount of the debt to be incurred, the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed forty years and the maximum rate of interest to be paid, which shall not exceed eight per cent per annum, payable semiannually. The proposition to be voted upon in such event shall be: "Shall the territory described in the resolution of the board of supervisors adopted on the-----day of-----, 19--, be added to-----county water-works district No.-----, and shall said district, as the same will exist after the addition of said territory, incur a bonded indebtedness in the sum of-----dollars (\$-----) for the purpose of (stating the purposes for which the amount

so raised is to be used)?" Notice of said election and all matters in connection with said election shall be given and conducted in the manner hereinbefore provided, where the proposition is to be upon the sole question of the adding of new territory. If at such election a majority of the votes cast in the district then existing and a majority of the votes cast in the territory sought to be added thereto are in favor of said proposition of adding new territory and of incurring such bonded indebtedness, then the board of supervisors shall enter an order to that effect upon its minutes, declaring said new territory added to the district, and from and after the date of such order such territory shall be deemed added to and shall form a part of said district subject to all the rights, privileges, powers and responsibilities set forth in this act and necessarily incident thereto and said board shall thereupon be authorized and empowered to issue bonds of said district (as the same will exist after the addition of such new territory), for the amount voted upon at said election. The provisions elsewhere in this act made for the form of bonds, issuance and sale of bonds, the levying and collecting of taxes for the payment thereof and of other matters relating to bonds of the district shall govern in the case of such bonds.

#### REPORT ON SANTA ANA COOPERATIVE INVESTIGATIONS.

Pursuant to chapter 476 of the Statutes of 1925, by the State Engineer and Engineering Consulting Committee appointed by Orange, Riverside and San Bernardino counties.

# THE WATER PROBLEMS OF SAN BERNARDINO, RIVERSIDE AND ORANGE COUNTIES.

STATE OF CALIFORNIA, DEPARTMENT OF PUBLIC WORKS.  
SACRAMENTO, April 2, 1927.

*To the Governor of California and  
the State Legislature, Session of 1927.*

HONORABLE SIR: The main source of water for these three counties is the Santa Ana River and its tributaries, draining 1485 square miles above the lower canyon of the river, which is near the eastern boundary of Orange County. The grand total water crop from this area for the last thirty years has been estimated at over three hundred thousand acre feet per annum. This water is discharged largely in the form of torrential floods during the winter, followed by extreme low stages in the summer when it is most required. In Orange County 80 per cent of the total supply is now obtained from wells and probably over 50 per cent in San Bernardino and Riverside counties. In Orange County these large drafts on the ground water supply is causing its serious depletion. The same is true in large areas in San Bernardino County. In all three counties there is an excess of land not now served with water which under its present condition has little value, but if properly supplied with water would become exceedingly productive and valuable. The winter floods frequently occur in great volume rushing to the sea and causing great damage in their course. In Los Angeles County these flood damages in 1914 and 1916 were estimated at \$10,000,000. The flood in February, 1927, destroyed bridges at a loss of approximately \$400,000 in Riverside County. In Orange County the flood of 1916 is estimated to have done \$1,000,000 in damage. The amount of damage in San Bernardino County, while large, has not been estimated for 1927.

## PLAN OF STUDY.

The three counties of Orange, Riverside and San Bernardino, realizing the importance of an adequate water supply during periods of necessity and the avoidance of flood damage, requested the State of California to assist them in finding some remedy. This resulted in the passing of a State appropriation of \$25,000 to be expended during the fiscal period 1925-1927, as contained in chapter 476 of the Statutes of 1925. This instructed the State Engineer's office to carry out a water supply study in cooperation with the three counties, provided the three counties contributed an equal sum to this work. This county cooperation was obtained. Each county also appointed an engineer to represent it in consultation with the State Engineer. In addition to this the three counties are cooperating in the actual work of conserving flood waters by spreading them on the debris cones where the streams leave their mountain canyons. The water companies, which are practically all public institutions, have been expending funds in investigation for the conservation of the winter flows by spreading in the higher portion of the mountain basins.

## THE PROPOSED REMEDY.

The remedy for the problem of flood prevention and conservation, as contemplated consists in the storage of flood waters in the mountains for purposes of regulation and conservation. It is also proposed to store flood waters in the lower portion of the drainage basin before they reach the coastal plain and to regulate the winter flow for summer use. By the regulation of these floods it will be possible to handle them in such a way that much greater quantities of water can be put under ground by spreading and absorption so as to sustain the ground water levels.

## WORK ACCOMPLISHED.

The work accomplished during the biennium under the 1925 appropriation consists of an investigation of the available water supply and of the flood flows in all the tributaries of the Santa Ana, except the San Jacinto. Reconnaissance of over forty miles of stream channel was made for reservoir sites with which their floods might be controlled. Field surveys were made of the sites found, the reservoir capacities determined, cost estimates made for several heights of dam at each site, and the degree of control of floods determined for several reservoir capacities. In all, 19 dam sites and 13 separate reservoir sites were so investigated. The foundations of two of the dam sites were explored with the diamond drill. In addition, an underground water contour map was made of the Santa Ana Basin and much data collected on the subsurface supply and the use of water.

## WORK REMAINING TO BE DONE.

While the investigations provided for in the act referred to above have been carried on diligently and continuously for the last two years, the problem has been found to be so complex and involves such great values that a conclusion as to the best method of procedure and remedy can not yet be stated. Some of the dam sites surveyed have not been explored for bedrock. Others have been surveyed so recently that time has not been available for the study of plans and estimates. It

is particularly important that the ground water supplies should be more thoroughly investigated, as a large portion of the water must always be derived from this source. When the physical data is complete some reasonable plan should be outlined for the improvement of the entire basin as a unit if possible.

Probably the largest undeveloped supply in southern California is the Mojave River in San Bernardino County. Very little is known of this stream except that its flood discharge is very great and its low water flow exceedingly small. Reservoir sites exist and the underlying lands are desert. We recommend that this water supply study should be extended to the basin of the Mojave River.

#### ESTIMATED COST OF WORK.

It is proposed that the three counties should continue their studies and experiments as to the effectiveness of putting flood waters under ground by spreading operations, and that these counties should bear this portion of the expense. Partly in consideration of this, we advise that the State continue their general hydrographic studies of surface and ground waters in these three counties, including the Mojave River. The estimated cost of continuing this State work for the coming two years is \$75,000.

Respectfully submitted.

PAUL BAILEY,  
State Engineer.

The amount that shall have been paid at such sale as accrued interest on the bonds shall be, by the Treasurer of the State immediately after such sale, paid into the treasury of the State and placed in the "State railroad grade separations interest and sinking fund" which is hereby created.

Upon receipt of such demands, so approved, it shall be the duty of the State Controller to draw his warrant upon said State railroad grade separations revolving fund in favor of the person, firm, corporation or association therein named, and the State Treasurer shall pay the same. On or before the tenth day of each month thereafter, the California Highway Commission shall submit to the State Board of Control a verified, itemized statement, showing all expenditures during the preceding calendar month of the money so drawn from said State railroad separations revolving fund, accompanied by proper vouchers and receipts therefor. Said statements shall be audited by the State Board of Control in the same manner that claims against the State are audited, and if found to be correct shall be approved by the State Board of Control and transmitted to the State Controller with such approval endorsed hereon. The State Controller shall thereupon draw his

warrant upon the State railroad grade separations fund in favor of the California Highway Commission for the aggregate amount of such expenditures, and upon the surrender of such warrant, properly endorsed, the State Treasurer shall transfer the amount thereof upon the books of his office from the said State railroad grade separations fund to the said State railroad grade separations revolving fund to be expended as aforesaid.

There is hereby appropriated from the general fund of the State treasury, such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this section, as said principal and interest becomes due and payable.

There shall be collected annually in the same manner and at the same time as other State revenue is collected such a sum, in addition to the ordinary revenues of the State as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

The Treasurer of the State shall on the first day of January, 1929, and on the first day of each July and the first day of each January thereafter transfer from the general fund of the State treasury to the State railroad grade separations sinking fund such an amount of the moneys by this section appropriated as shall be required to pay the interest on the bonds sold hereunder, until the interest on all the said bonds so sold shall have been paid or shall become due in accordance with the provisions of this section.

There is hereby created in the State treasury a fund to be known and designated as the "State railroad grade separations sinking fund." The Treasurer of the State shall on the third day of July, 1934, and on the third day of July of each and every year thereafter, in which a partial of the bonds sold pursuant to the provisions of this section shall become due, transfer from the general fund of the State treasury to the said State railroad grade separations sinking fund such an amount of money appropriated hereunder as may be required to pay the principal of the bonds so becoming due and payable in such years.

The principal of all of said bonds sold shall be paid at the time the same becomes due from the State railroad grade separations sinking fund and the interest on all bonds sold shall be paid at the time said interest becomes due from the State railroad grade separations interest and sinking fund. Both principal and interest shall be so paid upon warrants duly drawn by the Controller of the State upon demands audited by the State Board of Control and the faith of the State of California is hereby pledged for the payment of the principal of said bonds so sold and the interest accruing thereon.

For the purposes of this section, a railroad grade separation is defined to be any crossing and the approaches leading thereto and therefrom between a State highway and the tracks of any commercial interurban or other railway by whatsoever power operated.

The moneys in said State railroad grade separations fund shall be used by the California Highway Commission to pay that portion of the cost of the acquisition of rights of way for railroad grade separations and the acquisition, construction and improvement of railroad grade separations upon State highways within the State highway system of the State of California as may be assigned to the State by order of and as apportioned by the State Railroad Commission.

When requested by the Highway Finance Board, the State Treasurer shall prepare such number of bonds so dated and bearing such interest rate thereon, all as so determined by said board. The said bonds and the interest thereon shall be payable in gold coin of the United States of the present standard of value either at the office of the Treasurer of said State or at the option of the holder at the fiscal agency for the State of California, in the city of New York, in the state of New York. The interest accruing on any of said bonds that may be sold shall be payable as herein provided on the third day of January and the third day of July of each and every year, after the sale of any of the said bonds. Said bonds shall mature at the times herein specified and the principal of said bonds shall be payable at either of the above designated places at such times. All bonds remaining unsold shall at the date of the maturity thereof be, by the Treasurer of the State, canceled and destroyed. All bonds issued pursuant to the provisions of this act shall be signed by the Governor of this State, countersigned by the State Controller and endorsed by the State Treasurer, and the said bonds shall be so signed, countersigned and endorsed by the officers who are in office on the date of the issuance of any parcel of bonds hereunder and each of said bonds shall have the great seal of the State of California impressed thereon. The said bonds signed, countersigned, endorsed and sealed as herein provided, when sold, shall constitute a valid and binding obligation upon the State of California, though the sale thereof be made at the date or dates after the person so signing, countersigning and endorsing, or either of them, shall have ceased to be the incumbents of said office or offices.

Appended to each of said bonds there shall be interest coupons so attached that the same may be detached without injury to or mutilation of said bond. The said coupons shall be consecutively numbered and shall bear the lithographed signature of

the State Treasurer who shall be in office on the third day of July, 1929. No interest shall be paid on any of said bonds for such time as may intervene between the date of said bond and the date of sale thereof, unless such accrued interest shall have been by the purchaser of said bond, paid to the State at the time of such sale.

There is hereby appropriated from the general fund of the State treasury such sum annually as will be necessary to defray all expenses that shall be incurred by the State Treasurer in the preparation of said bonds and in the advertising of the sale thereof, as in this section provided. When the bonds authorized by this section to be issued shall have been signed, countersigned, endorsed and sealed as provided herein the State Treasurer shall sell the same in such parcels and numbers not inconsistent with the provisions hereof, as the Governor of the State shall direct to the highest bidder for cash. The Governor of the State shall issue to the State Treasurer such direction immediately after being requested so to do by the California Highway Commission. Such request shall specify the amount of money which in the judgment of said commission shall be required at such time and the Governor of the State shall direct the State Treasurer to sell such number of said bonds as may be required to raise said amount of money and that said bonds shall be sold in consecutive numerical order. The State Treasurer shall not accept any bid which is less than the par value of the bond plus the interest which has accrued thereon between the date of sale and the last preceding interest maturity date. The State Treasurer may at the time and place fixed by him for said sale continue such sale as to the whole or any part of the bonds offered to such time and place as he may at the time of such continuance designate. Before offering any of said bonds for sale, the said Treasurer shall detach therefrom all coupons which have matured or will mature before the date fixed for such sale. The State Treasurer shall give notice of the time and place of sale by publication in two newspapers published in the city and county of San Francisco and in one newspaper published in the city of Oakland, and in one newspaper published in the city of Los Angeles and in one newspaper published in the city of Sacramento once a week for four weeks next preceding the date fixed for such sale. In addition to the notice last above provided for, the State Treasurer may give such further notice as he may deem advisable, but the expenses and cost of such additional notice shall not exceed the sum of five hundred dollars for each sale so advertised.

In the event that any bonds prepared as herein provided can not, in the judgment of said State Highway Finance Board be sold at the time fixed for the sale thereof, or thereafter, said board may withdraw said bonds from sale and direct the State Treasurer to cancel and destroy the same, and may at said time or thereafter, at its option, direct the preparation and sale, as hereinbefore provided, of the same or a different number of bonds, but not to exceed in all the amount herein authorized and at the same or a different rate of interest, but not to exceed six per cent per annum.

All provisions of this section shall be self-executing and shall not require any legislative action in furtherance thereof, but this shall not prevent such legislative action; and all expenses that shall be incurred by the State Treasurer in the preparation of bonds herein provided for and in the advertising and sale thereof; and all expenses incurred by any officer in reference thereto shall be paid from the general fund of the State. Nothing in this constitution contained, except as in this section provided, shall be a limitation upon the provisions of this section.

MESSAGES FROM THE ASSEMBLY.

The following messages from the Assembly were received and read:

ASSEMBLY CHAMBER, SACRAMENTO, April 14, 1927.

MR. PRESIDENT: I am directed to inform your honorable body that the Assembly on this day sustained the veto by the Governor relative to the following two items of Assembly Bill No. 500—Item No. 1.—I object to the item on page 5 under the heading "Administrative" reading as follows: "For support of Secretary of State two hundred thirty-seven thousand six hundred fifty dollars (\$237,650)" and reduce the amount to two hundred twenty-two thousand six hundred fifty dollars (\$222,650), for the reason that the measure recently passed by the Legislature repealing the corporation license tax act makes possible this reduction in the expenses of the office of the Secretary of State, according to the opinion of that office;

Also: Item No. 2.—I object to the item on page 10 reading "For support of California Highway Commission and State Highway Engineer, forty-one thousand six hundred dollars (\$41,600), payable from Highway Maintenance fund" for the reason that in my opinion ample provision for such expenditures is included in the language of the item of appropriation on page 10 reading "For general administration of California Highway Commission, and maintenance and reconstruction of highways, twenty-seven million one hundred thousand dollars (\$27,100,000), payable from Highway Maintenance fund." It was the intention at the time of my recent message to you suggesting amendments to the budget that this item be eliminated and a corresponding reduction in the budget was reported to you in that message.

#### CALIFORNIA LEGISLATURE.

SENATE, April 15, 1927.

*Hon. Buron R. Fitts, Lieutenant Governor.*

MY DEAR GOVERNOR FITTS: In this letter it is not necessary to more than refer to the fact of the auto accident which happened to me on Thursday last at Eleventh and L, as a result of which I am informed by my physicians that I am out of commission for the balance of the session. I therefore respectfully apply for an indefinite leave of absence.

As a matter of record I wish to state that I passed one car, and as I did so was struck by another car which was, in violation of the law, endeavoring to pass the first car at intersection. I did not see the second car until it struck me. If the driver had remained in the rear of the first car, as the law provides, the accident would not have occurred. The law is very explicit on the point of passing at intersections but is being violated very much in all cities. It is impossible for a pedestrian to see a second car which is passing the first car at intersection, and that was the reason for enactment of the law. I wish to give the driver credit for stopping his car so quickly after he struck me. Otherwise, he would have passed over me. As it was, I was greatly shocked and unconscious when taken to the Emergency Hospital, but later transferred to the Sutter Hospital, where my physicians reported my right arm broken and right hip fractured. My left arm also is injured, but not severely. It will probably be weeks before I regain the use of my right arm, and it will be necessary to put my right hip in plaster cast for several months, so that it will be necessary for me to return to my home on a stretcher. If the contingent fund will bear the expense I will be very happy to have a committee of Senators accompany me to my home. I will thank you to have this letter read to the Senators, and placed in the Journal as explanation of my absence for the remainder of this session of the present Legislature.

I can not express in words my appreciation of the many telegrams, letters, flowers, and personal calls I have received, although physicians say it is necessary to deny visitors until I have recovered from the shock.

There is not one Senator on the floor with whom I have been associated that I could not take by the hand and call my friend. This fellowship has been one of the bright spots of my life, and I shall always cherish the comradeships formed in the Senate of California, where I can honestly say that I believe the members have always tried to render the best service possible to the State of California. I wish also to assure you, Mr. President, and the officers and clerical force of the Senate, and members of the press, that I appreciate the very many courtesies.

You will understand that this letter is dictated under difficulties at the hospital where I am suffering as a result of the accident.

I do not forget the kindness of Assemblyman Harry Lyons, and the stranger who furnished the auto to convey me to the Emergency Hospital; and also will always remember the faithfulness of Assemblyman Willis Baum and Assemblyman Sewell, who accompanied me from the Emergency to the Sutter Hospital. If all goes well and present progress continues, I may be able to be moved some day next week.

Sincerely regretting that I must part under such circumstances from so many valued friends, I am, with kind personal regards to all,

Sincerely yours,

CADDET TAYLOR.

State Senator, Thirty-third Senatorial District.

SEC. 6. The reclamation board shall deliver the bonds prepared pursuant to this act, duly signed and attested, to the state treasurer. Within ten days after said bonds have been delivered to the state treasurer, an action may be commenced by the reclamation board to have it determined that said bonds are a legal obligation of said drainage district, which said validation proceedings shall be commenced and carried to a final judgment in the manner prescribed by section 32 of an act entitled "An act to authorize the issuance and sale of bonds of the Sacramento and San Joaquin drainage district based upon assessments levied by the reclamation board upon lands in said district," approved May 27, 1919.

SEC. 7. The bonds of the Sacramento and San Joaquin drainage district issued pursuant to this act which are investigated and approved by any commission or officer now or hereafter authorized by any law of this state to conduct such investigation and give such approval, and by authority of which approval said bonds are declared legal investments for savings banks, may be lawfully purchased or received in pledge for loans by banks, trust companies, insurance companies, guardians, executors, administrators and special administrators or by any public officer or officers

of this state or of any county, city or city and county, or other municipality or corporate body within this state having or holding funds which they are allowed by law to invest or loan.

The state board of control shall give notice from time to time to holders of such warrants in such manner as it may deem best that it will purchase warrants of said district issued in connection with said project number six in an amount sufficient to exhaust a specified sum of money at such price as may be deemed by said board to be fair, not exceeding, however, the face value thereof plus accrued interest: *provided, however*, that said board of control may reject any or all offers at which said warrants may be offered by holders thereof if, in the opinion of said board of control, the price at which such warrants are offered does not justify the investment of moneys of the state therein.

The said board of control is hereby further authorized to exchange any warrants so purchased by it for bonds of said district authorized and issued in accordance with this act at the price paid for such warrants by said board of control, and it shall be the duty of said reclamation board to accept said warrants at such price in payment for said bonds, and said bonds shall not be sold except to said board of control in exchange for warrants as herein provided.

SEC. 9. Said board of control is hereby further authorized to sell all or any part of said bonds so taken in exchange for warrants: *provided*, that any such sale shall be effected without loss to the state.

SEC. 10. Immediately upon the said bonds herein authorized and directed to be cancelled being cancelled, said reclamation board is hereby authorized, and it shall be the duty of said reclamation board to order that said assessment number six shall be paid in semiannual installments equal to three and one-half per cent of the principal of said assessment for each installment: *provided, however*, that immediately upon said supplementary assessment number six becoming a lien upon the lands, it shall be the duty of said reclamation board to rescind and cancel said order providing for the payment of three and one-half per cent semiannually and order that thereafter said assessment number six and said supplementary assessment number six shall be paid in semiannual installments equal to three and one-half per cent of principal amount of said assessments for each installment. The money so received from such installments shall be used for the following purposes and in the order hereinafter provided, and not otherwise:

(a) For the payment of the cost of levying and prorating said supplementary assessment number six and for the payment of expenses incidental to the carrying out of the provisions of this act: *provided, however*, that the sum of money that may be used by the reclamation board for the purposes of this subdivision (a) shall at no time exceed seven per cent of the total amount of money received from said assessments;

(b) For the redemption of such warrants of said district issued in connection with said project number six as may be entitled, by reason of any law in force prior to the time that this act becomes effective, to be redeemed out of money received from said assessments before the application of such money to the other purposes provided in this act;

(c) For the payment of interest on the bonds issued and sold pursuant to the provisions of this act;

(d) For the redemption of bonds issued and outstanding under the provisions of this act.

SEC. 11. Whenever there shall be on hand the sum of one thousand dollars or more, over and above the sum of money necessary to meet the requirements of subdivisions (a), (b) and (c) of the preceding section and applicable to the redemption of said bonds, said reclamation board shall, at any time, not less than sixty days before any semiannual interest date of said bonds, publish notice of the amount of money on hand available for the purchase or redemption of said bonds and inviting offers to be submitted to said reclamation board, within a period in such notice fixed, for the sale of such bonds, at prices to be named in such offers by the holders thereof. Said notice shall be published in a daily newspaper published in each of the following named cities of the State of California, Sacramento, Los Angeles and San Francisco, at least once in each week for three consecutive weeks. Upon receipt of such offers, the lowest and best offers shall be accepted up to the limit of the moneys on hand available for purchase of said bonds: *provided, however*, that no offer or offers so accepted shall exceed the par value of said bond or bonds plus accrued interest. In the event sufficient offers shall not be received to exhaust the moneys designated in such notice, said reclamation board shall select by lot so many of said bonds as shall be sufficient to exhaust the money designated in such notice. Immediately after such selection has been made the

reclamation board shall cause to be published in a daily newspaper once each week for two successive weeks, in a newspaper published in the city and county of San Francisco, in a newspaper published in the city of Sacramento, and in a newspaper published in the city of Los Angeles, a notice stating that at a specified semiannual interest date, the bonds specified in such notice will be redeemed, and the time, and fixing the place for the redemption thereof. If any bond designated in such notice shall not be presented for redemption at the time and place specified, it shall cease to bear interest.

SEC. 12. If any bond or interest coupon shall not be presented to the state treasurer for payment when the same becomes due, it shall cease to bear interest, but if presented at or after such time and not paid for want of funds, the state treasurer shall so endorse such bond or coupon together with the date of such presentation, and thereafter such bond or coupon shall bear interest at the rate expressed in the bond until paid or until funds have been provided in the state treasury applicable to its payment. The bonds purchased or redeemed pursuant to this section together with all unmatured coupons appertaining thereto, shall immediately be canceled.

SEC. 13. Any owner or holder of lands within the boundaries of said district whose lands are subject to the lien of said assessment number six, or said supplemental assessment number six, levied in connection with said project number six shall have the right to present to any officer authorized by law to collect such assessments, or any part thereof, warrants of said district issued in connection with said project number six prior to the date this act becomes effective in payment of his assessment, or any part thereof, and it shall be the duty of such officer to accept such warrants so presented or tendered in payment of such assessment, or any part thereof, at the face value of such warrant or warrants so presented, plus accrued interest, and any such owner or holder of land shall have the further right and privilege of presenting and tendering a bond or bonds of said district issued pursuant to this act in payment of any such assessment or any part thereof, and it shall be the duty of the officer authorized to collect such assessment to accept such bond or bonds in payment of such assessment or any part thereof at the par value thereof, plus accrued interest.

SEC. 14. This act shall be known and may be referred to as "Sacramento and San Joaquin drainage district refunding act."

SEC. 15. Inasmuch as this act concerns and is necessary to the immediate preservation of the public welfare, safety and peace, for the reason that the state and the people thereof have a primary interest of protecting, in so far as they may, a large number of the citizens of the state from financial disaster due to construction of flood control works affecting said district, and to which the state is a party, this act shall take effect upon approval by the governor.

SEC. 16. This act, in so far as it does not add to, take away from or alter an act entitled, "An act approving the report of the California debris commission transmitted to the speaker of the house of representatives by the secretary of war on June 27, 1911, directing the approval of plans of reclamation along the Sacramento river or its tributaries, or upon the swamp lands adjacent to said river, directing the state engineer to procure data and make surveys and examinations for the purpose of perfecting the plans contained in said report of the California debris commission and to make a report thereof, making an appropriation to pay the expenses of such examinations and surveys, and creating a reclamation board and defining its powers," approved December 24, 1911, as now amended, shall be construed as a continuation thereof, and all other acts or parts of acts in so far as they are in conflict with this act, are hereby repealed.

## SENATE CONSTITUTIONAL AMENDMENT No. 12.

A resolution to propose to the people of the State of California an amendment to the constitution of said State by repealing the first numbered section 11 of article VI, proposed by the forty-fifth session of the Legislature as Assembly Constitutional Amendment No. 2 and approved and ratified by the people at the general election held November 4, 1924, by amending sections 3, 4, 5 and 13 of said article and by adding to said article new sections to be numbered 4a, 4b, 4c and 11a, relating to courts of record and inferior courts.

*Resolved by the Senate, the Assembly concurring.* That the Legislature of the State of California, at its forty-seventh session, commencing on the third day of January, 1927, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California the following amendments to the constitution of the State of California:

First—Section 11 of article VI proposed by the forty-fifth session of the Legislature as Assembly Constitutional Amendment No. 2 and approved and ratified by the people at the general election held November 11, 1924, is hereby repealed.

Second—Section 3 of article VI is hereby amended to read as follows:

Sec. 3. The chief justice and the associate justices shall be elected by the qualified electors of the State at large at the general election, at the time and places

at which State officers are elected, except as provided by section 24 of article II of this constitution, and the term of office shall be twelve years from and after the first day of January next succeeding their election. If a vacancy occur in the office of a justice, the Governor shall appoint a person to hold the office until the election and qualification of a justice to fill the vacancy, which election shall take place at the next succeeding general state or primary election after the first day of April next succeeding the occurrence of such vacancy; the justice then elected shall hold office for the unexpired term; *provided*, that whenever the term of office of the justice whose place is filled by appointment is fixed by law to expire on the first day of January after the next or succeeding general election, then the person so appointed to fill the vacancy shall hold office for the remainder of such unexpired term.

Third—Section 4 of article VI of said constitution is hereby amended to read as follows:

Sec. 4. The supreme court shall have appellate jurisdiction on appeal from the superior courts in all cases in equity, except such as arise in municipal or justices' courts; also, in all cases at law which involve the title or possession of real estate, or the legality of any tax, impost, assessment, toll, or municipal fine also, in all such probate matters as may be provided by law; also, on questions of law alone, in all criminal cases where judgment of death has been rendered; the said court shall also have appellate jurisdiction in all cases, matters and proceedings pending before a district court of appeal, which shall be ordered by the supreme court to be transferred to itself for hearing and decision, as hereinafter provided. The said court shall also have power to issue writs of mandamus, certiorari, prohibition, and habeas corpus, and all other writs necessary or proper to the complete exercise of its appellate jurisdiction. Each of the justices shall have power to issue writs of habeas corpus to any part of the state, upon petition by or on behalf of any person held in actual custody, and may make such writs returnable before himself or the supreme court or before any district court of appeal, or before any justice thereof, or before any superior court in the State, or before any judge thereof.

Fourth—A new section to be numbered section 4a of article VI is hereby added to said constitution to read as follows:

Sec. 4a. The State is hereby divided into three appellate districts, in each of which there shall be a district court of appeal, consisting of such number of divisions having three justices each as the Legislature shall determine; and until so determined otherwise, the courts of appeal for the first and second appellate districts shall each consist of two divisions, and the court of the third appellate district shall consist of one division.

The Legislature may from time to time create and establish additional district courts of appeal and divisions thereof and fix the places at which the regular sessions thereof shall be held and may provide for the maintenance and operation thereof. For that purpose the Legislature may redivide the State into appellate districts, subject to the power of the supreme court to remove one or more counties from one appellate district to another as in this section provided.

Each of such divisions shall have and exercise all of the powers of the district court of appeal.

The district court of appeal as existing immediately prior to the approval and ratification of this amendment by the people shall not be affected thereby as to the officers or terms of office of the justices thereof.

Upon the creation of any additional division of the district court of appeal the governor shall appoint three persons to serve as justices thereof until the first day of January after the next general election. The justices of said division elected at such general election shall so classify themselves by lot that one of them shall go out of office at the end of four years, one of them at the end of eight years, and one of them at the end of twelve years, and entry of such classification shall be made in the minutes of said division, signed by the three justices thereof, and a duplicate thereof filed in the office of the Secretary of State.

The justices of the district courts of appeal shall be elected by the qualified electors within their respective districts at the general State elections except as provided in section 24 of article II; and the term of office of said justices shall be twelve years from and after the first day of January next succeeding their election.

If any vacancy occur in the office of a justice of the district courts of appeal, the governor shall appoint a person to hold office until the election and qualification of a justice to fill the vacancy. Such election shall take place at the next succeeding general State or primary election after the first day of April next succeeding the occurrence of such vacancy; the justice then elected shall hold office for the unexpired term; *provided*, that whenever the term of office of the justice whose place is filled by appointment is fixed by law to expire on the first day of January after the next or such succeeding general election then the person so appointed to fill the vacancy shall hold office for the remainder of such unexpired term.

One of the justices of each of the district courts of appeal, and of each division of said courts, shall be the presiding justice thereof, and as such shall be appointed or elected, as the case may be.

In cases wherein the presiding justice is not acting, the other justices shall designate one of their number to perform the duties and exercise the powers of presiding justice.

The presence of two justices shall be necessary for the transaction of any business by such court except such as may be done at chambers, and the concurrence of two justices shall be necessary to pronounce a judgment.

No appeal taken to the supreme court or to a district court of appeal shall be dismissed for the reason only that the same was not taken to the proper court, but the cause shall be transferred to the proper court upon such terms as to costs or otherwise as may be just, and shall be proceeded with therein as if regularly appealed thereto.

All statutes now in force allowing, providing for or regulating appeals to the supreme court shall apply to appeals to the district courts of appeal so far as such statutes are not inconsistent with this article and until the Legislature shall otherwise provide.

The first district shall embrace the following counties: San Francisco, Marin, Contra Costa, Alameda, San Mateo, Santa Clara, Fresno, Santa Cruz, Monterey and San Benito.

The second district shall embrace the following counties: Tulare, Kings, San Luis Obispo, Kern, Inyo, Santa Barbara, Ventura, Los Angeles, San Bernardino, Orange, Riverside, San Diego and Imperial.

The supreme court, by orders entered in its minutes, may from time to time remove one or more counties from one appellate district to another, but no county not contiguous to another county of a district shall be added to such district.

Said district courts of appeal shall hold their regular sessions respectively at San Francisco, Los Angeles and Sacramento, and they shall always be open for the transaction of business.

Fifth—A new section to be numbered section 4b of article VI is hereby added to said constitution to read as follows:

Sec. 4b. The district courts of appeal shall have appellate jurisdiction on appeal from the superior courts (except in cases in which appellate jurisdiction is given to the supreme court) in all cases at law in which the superior courts are given original jurisdiction; also, in all cases of forcible or unlawful entry or detainer (except such as arise in municipal or in justices' or other inferior courts); in proceedings in insolvency; in actions to prevent or abate a nuisance; in proceedings of mandamus, certiorari, prohibition, usurpation of office, removal from office, contesting elections, eminent domain, and in such other special proceedings as may be provided by law; also, on questions of law alone, in all criminal cases prosecuted by indictment or information, except where judgment of death has been rendered.

The said court shall also have appellate jurisdiction in all cases, matters, and proceedings pending before the supreme court which shall be ordered by the supreme court to be transferred to a district court of appeal for hearing and decision. The said courts shall also have power to issue writs of mandamus, certiorari, prohibition and habeas corpus, and all other writs necessary or proper to the complete exercise of their appellate jurisdiction. Each of the justices thereof shall have power to issue writs of habeas corpus to any part of his appellate district upon petition by or on behalf of any person held in actual custody, and may make such writs returnable before himself or the district court of appeal of his district, or before any superior court within his district, or before any judge thereof.

The judgment of the district courts of appeal shall become final therein upon the expiration of fifteen days in criminal cases, or thirty days in all other cases, after the same shall have been pronounced.
